Dear Mr. Williams:

As requested, enclosed is a map of the Newport Plant landfill site. The monitoring wells are designated DB4 through DB8, and data for water analysis for chromium content are attached. There is a water well (indicated on map) northwest of the landfill area which is 80 feet deep and approximately 1,000 feet from the original landfill area.

If any additional information is needed, please contact me at 999-6275.

Very truly yours,

W. J. MC CLURE, PLANT MANAGER
